Databases and Testing: PostgreSQL | DynamoDB | React Testing Library | Playwright | Jest

Tools and Architecture: Git | CI/CD | Amazon Web Services | Supabase | Single Page Applications | Progressive Web Apps | Component Libraries

Work Experience

Personatech, Pune, India | Technical Lead | 03/2020 – Present

Technical Lead (04/2023 – Present) · Senior Software Engineer (03/2020 – 04/2023)

- **End-to-end full-stack delivery:** Led spec-driven features from Figma through React UI and Spring Boot APIs to production for an enterprise event networking platform used at global conferences.
- **Design-to-deploy acceleration:** Built an AI-assisted Speckit workflow streamlining spec authoring through implementation, enabling faster independent full-stack shipping without handoffs.
- **Frontend quality and leadership:** Established shared React component architecture, Playwright/React Testing Library coverage, and partnered with product and design on sprint planning for a distributed team.

Nium (InstaReM), Mumbai, India | Senior Software Engineer | 02/2018 – 02/2020

- **Cross-border payments mobile app:** Built and maintained the InstaReM React Native app (iOS/Android) for production fintech users; integrated PhonePe Switch and hardened security for payment flows.
- **Release ownership:** Owned App Store and Google Play releases, unit testing, and production monitoring for InstaReM and the Amaze card app.

Earlier Experience

- **Tekhne (2016–2018):** Developed Smaken React SPA for the Netherlands market; improved load performance via lazy loading and bundle optimization.
- **Courgette Concepts (2016):** Built Immidi marketing dashboard and React Native apps with Node.js/Koa APIs.
- **BYOF Studios / CodeRed (2013–2016):** Shipped Bluff Party (Unity3D) and browser poker games; published Legendary Strike to iOS App Store.

Education

B.Tech, Information Technology, 2012 — Dr. Rizvi College of Engineering, India (2008–2012)

Projects

FitBuddy | React | Supabase | ML Kit | LLMs

Fitness platform with on-device pose detection, Supabase/PostgreSQL backend, LLM-powered workout and meal analysis, and React creator web app.

World Tetris | github.com/AbhishekCode/word-tetris

Browser-based word puzzle game in JavaScript deployed as a responsive static site.
