

Abhishek Kumar Singh

Frontend-Focused Software Engineer with 13+ Years of Architecture and Performance

Frontend-focused software engineer with 13+ years specializing in frontend architecture, performance optimization, and maintainable engineering. Delivers reliable UI experiences backed by testing, accessibility, and DevEx improvements. Helped build event-tech products acquired by Hyve and a SaaS platform serving 10+ clients — 1M+ meetings and \$120M+ client revenue since 2023. Previously built fintech mobile apps at Nium/InstaReM.

Backend and Tools: Spring Boot | Node.js | REST APIs | React Native | Git | CI/CD | Amazon Web Services

Work Experience

Personatech, Pune, India | Technical Lead | 03/2020 – Present

Technical Lead title · Staff-level IC (04/2023 – Present) · Senior Software Engineer (03/2020 – 04/2023)

Event-tech SaaS — 10+ enterprise clients · 1M+ meetings · \$120M+ client revenue since 2023

- **Vertical products:** Part of the team that built Retail Meetup and Fintech Meetup, vertical event networking products acquired by Hyve after strong market performance.
- **Event-tech SaaS platform:** Helped set up and build the platform now serving 10+ enterprise clients; since 2023, powered 1M+ one-on-one meetings and \$120M+ in additional revenue for clients.
- **Frontend quality:** Own shared React component library and UI patterns; increased frontend test coverage from near 0% to 40% with Playwright and React Testing Library.
- **Hands-on IC delivery:** Operate as a staff-level IC shipping features end-to-end from Figma through React UI and Spring Boot APIs; mentor junior engineers on a task basis. Improved delivery speed by ~50% using AI workflows and automation.

Nium (InstaReM), Mumbai, India | Senior Software Engineer | 02/2018 – 02/2020

- **Cross-border payments mobile app:** Built and maintained the InstaReM React Native app (iOS/Android) for production fintech users; integrated PhonePe Switch and hardened security for payment flows.
- **Release ownership:** Owned App Store and Google Play releases, unit testing, and production monitoring for InstaReM and the Amaze card app.

Earlier Experience

- **Tekhne (2016–2018):** Developed Smaken React SPA for the Netherlands market; improved load performance via lazy loading and bundle optimization.
- **Courgette Concepts (2016):** Built Immidi marketing dashboard and React Native apps with Node.js/Koa APIs.
- **BYOF Studios / CodeRed (2013–2016):** Shipped Bluff Party (Unity3D) and browser poker games; published Legendary Strike to iOS App Store.

Education

B.Tech, Information Technology, 2012 — Dr. Rizvi College of Engineering, India (2008–2012)

Projects

FitBuddy | React | Supabase | ML Kit | LLMs

Fitness platform with on-device pose detection, Supabase/PostgreSQL backend, LLM-powered workout and meal analysis, and React creator web app.

World Tetris | github.com/AbhishekCode/word-tetris

Browser-based word puzzle game in JavaScript deployed as a responsive static site.
