EXPERIENCE

Technical Lead

Mar 2020 - Present

Personatech, Pune, India

Event-tech SaaS - 10+ enterprise clients, 1M+ meetings, \$120M+ client revenue since 2023

- Owned shared React components, hooks, and UI utilities (dynamic forms, validation, loading state, confirmation flows, datetime helpers) used across product surfaces.
- Raised frontend test coverage from near 0% to ~40% with Playwright and React Testing Library; own unit-testing standards for shared UI.
- Shipped core product flows including attendee profile, meeting acceptance, and session networking experiences.
- Key contributor on vertical event products later acquired by Hyve, and on the multi-tenant SaaS platform serving enterprise clients.
- Designed an internal product knowledge base and coding-agent skills to speed feature work; shared with the team (early adoption).
- Ship features end-to-end from Figma through React UI, with Spring Boot API work when needed.

Senior Software Engineer

Feb 2018 - Feb 2020

Nium (InstaReM), Mumbai, India

- Built and maintained the InstaReM React Native app (iOS/Android); created the InstaReM micro app for the PhonePe Switch platform and hardened security for payment flows.
- Owned App Store and Google Play releases, unit testing, and production monitoring for InstaReM and the Amaze card app.

Earlier Experience

- Tekhne (2016-2018):** Developed Smaken React SPA for the Netherlands market; improved load performance via lazy loading and bundle optimization.
- Courgette Concepts (2016):** Built Immidi marketing dashboard and React Native apps with Node.js/Koa APIs.
- BYOF Studios / CodeRed (2013-2016):** Shipped Bluff Party (Unity3D) and browser poker games; published Legendary Strike to iOS App Store.
